Profile

Dynamic and detail-oriented MCA graduate with a strong foundation in software development and a passion for problem-solving. I am seeking an entry-level position as a Software Developer where I can leverage my skills in Python, web technologies, and the MERN stack (MongoDB, Express, React, Node.js) to contribute to innovative projects and enhance user experience. Proficient in containerization with Docker to streamline development workflows and ensure scalable, consistent environments for deployment.

Education

Master Of Computer Applications,
Karpagam College of Engineering

2023 – 2025 | Coimbatore

Bachelor of Science in Computer Science,
Sri Ramakrishna College of Arts & Science

2020 – 2023 | Coimbatore

Higher Secondary Certificate,,
Sri Kalaivani Matriculation Higher Secondary School

2019 – 2020 | Thiruvengadam

Secondary School Leaving Certificate,,
Sri Kalaivani Matriculation Higher Secondary School

2017 – 2018 | Thiruvengadam

Skills

Front-End Development (HTML, CSS, JavaScript, Bootstrap)

HTML, CSS, JavaScript, and Bootstrap, specializing in creating static, responsive web pages. I will ensure adaptability across different screen sizes for a seamless user experience.

MERN Stack (MongoDB, Express.js, React, Node.js)

MERN stack, focusing on developing dynamic web pages. I will be adept at utilizing MongoDB, Express.js, React, and Node.js to create responsive and interactive web applications.

DOCKER

Docker, specifically in creating containers and pulling images used in Node.js applications. I am proficient with Docker commands that facilitate the management of containerized environments.

MySQL database

I will be proficient in managing data in MySQL, especially for CRUD operations: Create, Read, Update, and Delete functionalities.

Certificates

IBM Artificial Intelligence

Certified in AI with IBM, skilled in using Pandas, SPSS, Watson, and Cognos for data analysis and business intelligence.

Python Certification (Basic Level)

Certified in foundational Python programming, covering essential concepts and syntax for basic coding tasks and problem-solving.

Full-Stack Development (Edureka - MERN Stack)

Currently Studying full-stack development through Edureka's MERN stack course, gaining in-depth knowledge of MongoDB, Express.js, React, and Node.js for end-to-end web application development.

Professional Experience

Internship, YASH TECHNOLOGY

12/2024 – 03/2025 | Hyderabad, India

I have been working remotely as an **intern at Yash Technology** in **Hyderabad, Telangana**, focusing on **ASP.NET**  **MVC Core**. During this period, I developed an **Admin Module** to perform **CRUD operations**, connecting it to the **SQL Server Management System** for efficient data storage. My work involved gaining a strong understanding of **ASP.NET**  **'s basic structure and conditional logic**,

Projects

Food Application - Frontend Development

Designed a visually appealing, user-friendly interface for a food application using HTML5, CSS3, and JavaScript. Developed a login page and admin dashboard for selecting food items, emphasizing a modern, responsive layout to enhance user experience. The interface was structured to captivate users with engaging visuals and ease of navigation.

Cara E-commerce Website Application

Developed a responsive, clothing-oriented e-commerce website using HTML5, CSS3, and Bootstrap 5. Created **login**, **home**, **about**, and **categories** pages with a user-friendly design that adapts seamlessly across devices. Focused on delivering an attractive and functional layout to enhance the shopping experience

Courses

Full Stack Web Development with MERN and Python,

present | Coimbatore

Edureka - Learning Path

Currently pursuing a comprehensive course that covers full-stack web development using the MERN stack (MongoDB, Express.js, React, Node.js) alongside Python. The curriculum focuses on building dynamic web applications, integrating front-end and back-end technologies, and implementing best practices in software development. This program enhances my skills in creating responsive, user-centric applications and deepens my understanding of server-side programming

Interests

Frontend Web Development — Frontend web development with a focus on creating user-friendly, responsive designs and exploring modern frameworks like React.js Node js, and Bootstrap UI/UX.,

Database Management: — Enthusiastic about working with relational databases like MySQL, focusing on data organization, retrieval, and management through CRUD operations.

Organizations

Inter-college competition,

I successfully organized a national-level inter-college competition at my undergraduate college.

Sports organizer, *Successfully organized and managed a large-scale sports day event that attracted over 300 participants, completing two successful years*
